SUMMARY

I am currently pursuing Bachelor of Technology in Computer Science from Galgotias University with skills in web development and Java programming. I have build projects using HTML, CSS, Java ,MySQL and MongoDB Atlas. I enjoy learning new technologies and solving coding problems.

EDUCATION

Galgotias University

Bachelor of Technology, Computer Science

Oct 2022 - Jun 2026

SKILLS

Programming: Java, .NET

Web Development: HTML, CSS, JavaScript, Servlets and JSP

Tools: Apache NetBeans, VS Code, Maven, Git/GitHub

Concepts: Data Structures and Algorithms

Database: MySQL

PROJECTS

Automated API Testing(Academic Project) 🐙 GitHub

March 2026

Technologies: *Java, JSP, Servlets*

- Developed a web-based Automated API Testing System using Java Servlets and JSP to automate the testing and validation of REST APIs.
- Implemented JSON-based test case management, enabling users to define API endpoints, HTTP methods, request headers, payloads, and expected responses.
- Designed a reporting module to generate detailed pass/fail reports, reducing manual testing effort and improving testing reliability and efficiency.

Reunite (Academic Project) 🐙 GitHub

July 2025

Technologies: *Java, JSP, Servlets, Maven, Apache Tomcat, HTML/CSS*

- Developed a web application for reporting and tracking lost found items with automatic match generation and a simple chat feature using Java, JSP/Servlets and Apache Tomcat.
- Implemented features such as user registration, login, reporting lost found items, automatic match generation, and a simple chat system.
- Used JSP for frontend development and Java Servlets for backend API.

ProFileCraft (Academic Project) 🐙 GitHub

May 2025

Technologies: *Java Servlets, JSP*

- Developed a Java-based CV Generator web application using Servlets, JSP to dynamically create and manage user CVs.
- Used Java Servlets for handling HTTP requests/responses and JSP for rendering dynamic HTML content.
- Enabled users to submit, view, and update their CVs through an interactive and user-friendly web interface.

CERTIFICATIONS

Oracle: Java Foundation Course

Jan 2024

- * Acquired a strong understanding of Java programming fundamentals including syntax, data types, variables, operators, and control flow (if, switch, loops).
- * Gained exposure to IDE tools like NetBeans or VS Code to write, compile, and debug Java programs.
- * Received a course completion certificate from Oracle, demonstrating foundational skills in Java development.

AWS Academy via Eduskills: AWS Cloud Virtual Internship

Nov 2023

- * Learned about Amazon Web Services (AWS) and its core services.
- * Received an Internship Certificate and a Course Completion Certificate, validating practical cloud skills.

ACHIEVEMENTS

Leetcode: 100+ problems solved
